

**THE COMPETITIVE ADVANTAGE  
FOR U.S. MOLD BUILDERS.**

**FOR IMMEDIATE RELEASE**

March 1, 2023

## **AMBA Announces New 2023 Sourcebook and Cover Contest Winner**

**Indianapolis, IN** – The American Mold Builders Association (AMBA) 2023 *Sourcebook* is now available featuring a cover photo of a micro-fluidic medical device mold designed and manufactured by this year’s Cover Contest winner Westminster Tool, Inc., Plainfield, CT.

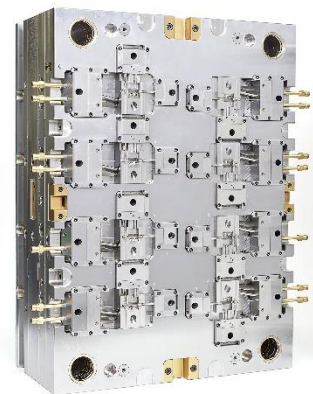

With an increased circulation of more than 2,000 Sourcebooks annually, AMBA distributes directories to AMBA members, as well as to additional mold manufacturers and mold buyers at tradeshow and other industry events throughout the year. The digital version of Sourcebook reaches a global audience, providing advertisers a direct link to current and potential customers.

AMBA members also have the opportunity to showcase a unique project by participating in the *Sourcebook* Cover Contest, which was established to promote the quality craftsmanship of AMBA mold manufacturers.

This year’s cover features a micro-fluidic medical device mold – a high-risk project that proved to be one of the most challenging for 2023 contest winner Westminster Tool, Inc. The final product required several technical features, including complex angled slides, multi-cam action shutoffs and a micro-fluidic feature – all of which were nearly impossible to machine with traditional approaches.

What separated this impressive mold from all other complex jobs at Westminster Tool was the amount of dedicated research and innovation that went into its perfect execution. With an extremely small end mill and high-precision polishing, the Westminster team was able to hit the tight-tolerance requirements of the micro-fluidic feature while also meeting stringent surface finish requirements.

### **About the AMBA**

The American Mold Builders Association (AMBA) is the only organization dedicated to elevating the competitive advantage of U.S. mold builders. AMBA provides workforce development initiatives, networking, benchmarking opportunities and industry promotion. AMBA members receive a variety of additional benefits, including access to cost-reduction programs, visibility to mold buyers and problem-solving resources that give members a competitive advantage. To learn more about AMBA membership and ongoing initiatives, visit [AMBA.org](http://AMBA.org).
